बाज़ार की स्थिति/MARKET SITUATION

- The market shows good recovery of shrimp consumption, especially in restaurants, propelled by the clearance of high-priced stock by importers suffering loss. The handling volume in supermarkets also has shown slight recovery.
- However, the consumption is likely to slide due to the imminent onset of rainy season and the further depreciation of Yen against US Dollar. The Yen went down from 122 to 125 against 1 US Dollar in a week's time.
- Big sizes of Lobster, Black Tiger shrimp and sea caught PD shrimp may resist the trend of domestic market.
- The Octopus market of Japan is likely to be influenced by the increase in the catching season and quota in Morocco, the major supplier, provided the sizes preferred are obtained.
- Kamaboko processors battling shortage in supply of Surimi are upbeat after the news on the successful trials of carp Surimi.
