बाज़ार की स्थिति/MARKET SITUATION

The market experiences a visible recovery in food consumption in accordance with the recovery of Japanese economy. Sales in supermarkets, especially fish and ready-to-eat items are seen. Shrimp stock is low, which includes sea caught shrimp, farmed Black Tiger and Vannamei shrimp. However, the further depreciation of Yen to Yen 125 against US Dollar has casted a shadow on the import sector. The consumption may also slow down as the rainy season set in Tokyo too. Less supply of big size octopus is expected this summer.
