A. जापान/JAPAN

बाज़ार की स्थिति/MARKET SITUATION

- Big size shrimp is relatively scarce due to lower imports. Vannamei, and small size shrimps have also shown some shortage. In spite of rainy season, shrimp consumption seems to be active, especially, peeled shrimps in super market chains.
- Octopus consumption is now peak due to seasonal factors. The price remain high due to scarce supply.

B. यूएसए/USA

बाज़ार की स्थिति/MARKET SITUATION

- **Latin American HLSSO white shrimp** are rated about steady. Offerings are somewhat mixed with a few lower; especially on the West Coast.
- **30-40 and 40-50 count head-on shrimp** are also about steady with mixed offerings. Smaller count shrimp are generally barely steady to weak.
- **26-30 count and larger Asian HLSSO white shrimp** are about steady at listed levels but a few lower offerings are noted. Smaller count shrimp are barely steady to weak.
- **Asian P&D tail-on white shrimp** are about steady at listed levels, a few mixed offerings are noted. P&D tail-off shrimp carry a similar tone.
- **Black tiger shrimp** were mostly steady at listed levels.
- **Domestic Shrimp:** Headless shell-on shrimp, 16-20 count and smaller, continue to decline given sufficient inventories, lower raw material costs, and the expectation the fishery will continue to develop.
- **PUD and P&D** values continue to hold. The expectation is for limited production in this category.
